### DepHyze™ Carpet Cleaner

No microbiological tests have been performed on the DepHyze™ Carpet Cleaner. This product has been formulated to be a cleaner and a deodorizer. It will remove odors caused by mold and mildew but it is not marketed as a sanitizer, however its use results in carpeting that is extremely resistant to mold growth.

\*All sporicidal data has been run by the U.S. Military, these protocols are not as of yet accepted by the E.P.A.
